Subject: Microsoft Settlement

Gentlemen:

Please accept the settlement so that Microsoft can get on with the business of serving the people of this country.

It is my opinion that Microsoft should never have been singled out and persecuted as it has been in recent times. I love Microsoft products, and I think Mr. Gates is wonderful for giving people such great software at affordable prices.

The ideas put forth by Microsoft are always geared toward increasing productivity, and everyone should support them so we can all have a better life.

I'm retired now, but I really enjoyed working with some of the computers I used in my jobs as a secretary. I consistently found that the computers I liked were all "loaded" with Microsoft products!

I hope the courts get finished with Microsoft so that Mr. Gates and his company can get back to business.

Sincerely,

Elaine C. Martinez
Seattle, Washington
